Summer School in Computer and Geoscience in Archaeology
University of Applied Sciences, Dresden, Germany
Jun 2024

innovative program designed to integrate technology with archaeology, offering insights into digital archaeology, remote sensing, geographical information systems, 3d-documentation, and more.

Web Development Challenger
Udacity
August 2022

developed my programming skills gradually through a fully integrated and stackable learning Javascript concepts.

Technical Support Fundamentals
Google
September 2021

learnt about the different facets of Information Technology, like computer hardware, the Internet, computer software, troubleshooting, and customer service.

Archaeological Excavation
"Lucian Blaga" University in Sibiu
July 2018

where I was involved in all stages of field research, I documented and excavated archaeological features, traced trenches, identified and cataloged materials, and recorded findings through writing, drawing, and photography. I showed strong dedication to historical and archaeological research, focusing on accuracy and thorough data organization.
